

THE LIGHTHOUSE "LEARN TO DIVE" PROGRAM

HOW LONG? Our program combines classroom and pool time two different ways:

- The **Three Week** course runs 2 evenings per week from 6:30 to 10:30pm with open water dives on the final weekend.
- **Weekend** classes are conducted over the course of three Weekends (see schedule on reverse for breakdown), open water dives being the last weekend.

Both options are offered in our three locations. Our classroom sessions will teach the academics of SCUBA through interactive classroom and pool sessions. The system requires the current textbook system with an e-learning code. **Private Lessons**, at your own pace and schedule are available as well at special rates for you or your family/group (one to four persons per instructor).

POOL

- Our pool sessions are taught in an indoor, heated, full-size pool to insure your enjoyment of the weightlessness of inner space as you learn the easy, fun and practical skill of diving.
- Our large pool allows the room for our small classes to learn the SCUBA skills and practice them.

OCEAN DIVES (OPEN WATER TRAINING)

Our four open water training dives are done in Puget Sound, giving you the opportunity to use your newly acquired diving skills in the open water environment and prepare you for continuing education programs such as *Advanced Diver*, *Rescue Diver*, *Dive Master* and other Specialty Programs like *Night Diver*, *Nitrox Diver*, *Solo Diver*, *Wreck Diver*, *Underwater Digital Photographer* and local dive trips with your Lighthouse Instructor. You may also purchase a **Drysuit** upgrade, and/or an upgrade to learn and dive oxygen-enriched **Nitrox** on your open water dives.

WHY LEARN WITH US?

- Our teaching staff is a dedicated group of professionals chosen for their skill and approach to safe, fun and enthusiastic Scuba instruction. Our instructors are qualified to train and certify divers using the internationally recognized Lighthouse instruction system in conjunction with over 46 years of world-wide diving experience.
- Our **Three Week** program ensure you get the maximum time in class and pool to ensure you have an enjoyable and safe experience during your Open Water dives. **No short cut courses here.**

EQUIPMENT

- We provide all necessary state of the art SCUBA equipment: Scuba Tanks, BCD, Regulator System w/ Octopus and gauges, 7mm 2-Piece cold water wetsuit with hood, and weight belt**
- As individual requirements, fit and preferences vary: each student is required to own their own approved personal **mask, snorkel, fins, boots and gloves of scuba diving quality**. Our professional sales staff are experts in fitting our equipment to you, as proper fit is essential for your comfort and success in learning to scuba dive.
- Students learn faster and more comfortably in their own gear, and are encouraged to purchase their own SCUBA gear
- **Drysuit Upgrade:** For an additional fee you may upgrade to learn in a drysuit. You'll dive warm and dry on your four open water dives.
- ** Equipment provided in standard sizes only (students may need to purchase their own non-stock sizes)

CLASS SIZE AND ENROLLMENT INFORMATION

- Class sizes average **6 to 10** people per instructor which offers maximum individual attention to our students. Our smaller classes lead to a safer, more intimate environment and exclude confusion in our diving activities. No hers of students her! Smaller classes fill quickly, so payment in full is required to hold a spot in a class. For your convenience you may enroll over the telephone with the credit card of your choice. Cancellations allowed up to one week before class starts with complete refund. No refunds after class starts.

Medical Conditions: If you have *Epilepsy, Asthma, Diabetes, or a heart condition*, you might not be able to take Scuba lessons. If you have questions about a medical condition, please check with one of our staff, and your doctor. You may need a medical release to take a Scuba Class.
