

## Rescue Diver Course: \$249.95

Part #: RESC-301

The Rescue Diver Course is an important step in expanding a diver's knowledge and ability beyond a recreational level. Your ability to help a diver in distress will not only benefit your buddy, should he/she need assistance, but will significantly increase your confidence and know-how in preventing and solving problems for *yourself* beyond that which you gained from the Advanced course. The Rescue Diver course helps to create capable, confident divers. No matter your current abilities you will find your own benefits from this course.

### Prerequisites:

- ✓ Advanced Scuba Diving certification
- ✓ 25 logged dives
- ✓ Proof of completion for First-Aid/CPR training within the last two years. (The EFR course offered through Lighthouse satisfies his prerequisite. Ask for details.)

### Recommended Equipment:

- Pocket Mask
- Pencil and Underwater slate
- Safety Tube
- Primary light
- Diver Alert

### Required Equipment:

- Mask, Fins, Snorkel
